

**Authorized body for conformity assessment and attestation of products and certification body for product certification**

testing, certification and inspections of machinery and construction products, consumer goods and winning machines, products intended to use in machinery, gas, electrotechnical, printing, chemical and wood-working industry

**Notified body No. 1299 for conformity assessment of products for following EU Directives**

98/37/EC	Machinery
88/378/EEC	Safety of Toys
90/396/EEC	Gas Appliances
92/42/EEC	Efficiency of Hot-Water Boilers
97/23/EC	Pressure Equipment
87/404/EEC	Simple Pressure Vessels
2000/14/EC	Noise Emission by Equipment Used Outdoors
89/106/EHS	Construction Products
73/23/EEC	Electrical Equipment Designed for Use Within Certain Voltage Limits

**Competent Body for EU Directive**

89/336/EEC	Electromagnetic Compatibility
------------	-------------------------------

**Testing and certification of products for Eastern markets - Russia and Belarus Republic**

testing of products according to requirements of legislative valid in Russian Federation and Belarus Republic, protocols proceeding according to GOST Standards, mediation of certificate issuing, inspections of production quality systems, consulting and sale of GOST Standards.

**Testing and marking of packagings, intermediate bulk containers (IBCs) and large packagings**

packagings, intermediate bulk containers (IBCs) and large packaging for transport of dangerous goods by roads (ADR), by rails (RID), by air (IATA - DGR, ICAO), by maritime (IMDG Code) and in accordance with Recommendation on the TRANSPORT OF DANGEROUS GOODS. Model Regulations (RTDG).

**Metrology**

verification of measures - torque wrenches, measures of acoustic pressure and water meters for cold and hot water, calibration of measures of length, pressure, temperature, torque, electric quantities and oscilloscopes, sound level meters, measuring microphones, vibration meters and band-pass filters

**Certification, type approval, inspections and tests of transport equipment used for road transport of perishable foodstuffs in accordance with Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to be Used for Such Carriage (ATP), as well as issuing certificates and certification labels for road transport equipment.**
